(OXFORD COUNTY, ME.)

NUMBER 22.

NORWAY, ME. FRIDAY, JUNE 2, 1916.

MAY 30, 1916 VOLUME XLVII.

Plan of High School Grounds, Blake and Smith Lots, and Millett Street

To the voters of the Town of Norway:—
By adding the Blake and Smith lots, and in so doing enjoying the use of Millett street, so called, which is dedicated as a Public Way, we add over 86 per cent. of frontage on Main street to our high school grounds.
This fact alone is a sufficient reason for the addition of these lots to the high school grounds.
The present grounds are small, considering the number of pupils who occupy them, and the present school building alone occupies 66 per cent. of the entire width of the front part of the school lot facing on Main street.
The distance from the steps on the north side of the building to the board fence which is the line is 22 feet, and the distance from the south side of the building to the board fence is 22 feet.
This fall the number of pupils will be increased to about 375 and the future business prospects of the town of Norway indicate that the increase of pupils will continue. Now is the logical time to enlarge our grounds, as the adjoining lots may be occupied and consequently more expensive in later years.
A plan is being agitated without the support of the School Board which involves the purchase of the Whitcomb lot, easterly of and adjoining Orchard street, and erecting thereon a high school building, which together with the purchase price of the lot, buildings and heating plant, would involve a large expenditure, besides divide the grounds and organization and necessitate an extra janitor.
The School Board have worked out a plan which meets all future requirements and will be much less expensive, at the same time needing but one janitor and one general heating plant as at the present time.
The continuously increasing school attendance will force the town to build within a very few years an addition

building, which they propose to erect on the Blake and Smith lots for the high school scholars only, using the present buildings for the grades. Such a building need not be large and can be heated from the one central steam plant, the location of which the town has already arranged for in the basement of the gymnasium building, which is already located at such a point as will advantageously heat both buildings.
Let us support the School Board in this move, keep the school buildings on the one central and well adapted location with the administration closer, and with the initial cost of maintenance lower. Let all citizens who are interested in the continuance of our good school record in Norway come forth on Saturday afternoon and support the efficient School Board in the purchase of the two lots, thus saving the town an unreasonable large expenditure in a few years to come.
—E. S. Cummings.

A Look Ahead.
In this school question Norway people want to look at it from all sides and see what is best before going further with the gymnasium building and additions and improvements. If it is not what is needed, call a halt and another town meeting, rescind the vote of the previous town meeting and begin again.
In the larger and more advanced cities the tendency is to group the school buildings all on one and a more retired street. This has been made necessary for the safety of the children because of the present automobile traffic on the main streets. Main street even in Norway village is no place for primary schools and the grades, and the high school would be better moved to a more retired street.
It has been talked that the Whitcomb field could be purchased. This would make an ideal place for our schools as far as location goes. It runs parallel to Main street and only needs the long talk of bridge across the stream from Oak Avenue to make it very accessible. This bridge would make much other land more available for home building. Norway will need more homes at the same time as school-room for the prospective scholars.
Then move our primary houses and high school and grade house on Main street, primary and high, for building house lots so much needed. Or perhaps better sell the houses for other purposes with the lots, and sell the extra kind at ready acquired.
If we have at present not room enough for Norway children and tuition pupils, there is only one thing to do. Care for Norway youths.
May Thibodeau of Boston was at home from Sunday until Tuesday night. Miss Thibodeau works in the telephone office in Boston.
Victor J. Charles of St. Louis, Mo., is in Norway for the summer.

Want Building Lots.
In regard to the school question please remember that more dwelling houses are urgently needed and that good building lots are extremely scarce and very high. No one has any desire to cripple our schools as the ample grounds now owned by the town bear witness. The voters will do well to carefully consider this question before deciding to take valuable and expensive building lots for additional school grounds.

Norway Grange Notes.

Committed Suicide.
Oliver G. Whitman committed suicide Tuesday afternoon at his home at the Record farm, below the Webster school house on the Oxford road.
After eating his dinner he went up stairs in the open chamber and took a shot gun, put the muzzle against his neck and fired, which blew off one side of his head.
Mr. Whitman and family moved here about a month ago from Locke's Mills. Mr. Whitman has been in poor health for some time and it is thought he was despondent over ill health and the increasing amount of farm work which it was impossible for him to do.
He is survived by his widow, two sons, Leslie of Norway and Asa of Greenwood and two brothers. He was 64 years of age.

Norway High School Notes.
There was no school Tuesday on account of Memorial Day.
The Parent-Teacher Association met at the high school building last Friday evening and listened to a very fine entertainment given by pupils of the grades and the high school. The eighth-grade room was given over to exhibits of work done by the grades. The high school chorus rendered two selections in a very pleasing manner.
The high school team met and defeated the Rumford high school baseball team on Saturday, May 21, with the record of 7 to 1. Norway high school has not yet been beaten on their own diamond. On account of the rain Tuesday it was necessary to cancel the game with Lisbon Falls.
The Cadet corps goes to print this week. It will be an exceedingly interesting number.
The Botany class of Norway high school, accompanied by George Noyes, spent the afternoon in field work.
Mrs. Ellen Paragard of Winchendon, Mass., is visiting at G. D. Stone's.

MEMORIAL DAY OBSERVANCE.

The scheduled plan for the observance of Memorial Day was greatly changed on account of the decidedly rainy day. During the forenoon from early morning the heavens opened and a constant rain descended until noon. Arrangements had been made to form a parade including the veterans of Harry Rust Post, the W. R. C., Frank T. Bartlett Camp, U. S. W. V., Co. D, N. G. S. M. and the band, with Frank Knapp as director, and march to Rustfield and Pine Grove cemeteries, where impressive exercises would have been held. However, on account of the severe storm, it was deemed best to omit the morning out-door part of the program and on some fair day visit the cemeteries and decorate the soldiers' graves.

The different organizations assembled at their appointed places of meeting in the forenoon and at noon a bountiful dinner was served at the Grange Hall by the W. R. C. to over 150.

At 2:30 o'clock in the afternoon the afternoon program was carried out at the Opera House as scheduled and was unusually interesting in charge of Commander W. S. Cordwell. The attendance at the exercises was not as large as usual, due to the inclement weather. The program was as follows:

Orchestra selection Orchestra
Prayer Rev. R. J. Brown
Prayer response Orchestra
Selection, quartet Mrs. S. I. Jackson
Mr. and Mrs. U. S. G. Abbott, Mr. S. I. Jackson, Frank Kimball

Reading and tabling "Memorial Day."
Mrs. Will Young, six little girls, six little boys and Ruth Holgate.

Oration Hon. Alton C. Wheeler of South Paris
Reading Mrs. S. I. Jackson
Orchestra selection Mrs. S. I. Jackson

The original patriotic solo, entitled "Memorial Day Ode" was written and sung by Mrs. Solomon I. Jackson as follows:

Hail to these heroes who saved our great Nation,
Where equal rights and our freedom were born,
We bring thee homage and heartfelt devotion,
This day we honor thee living, and gone,
Your country called you in her hour of civil strife,
You left your homes here, glad to serve her,
Bore forth her colors, the banner of light,
Emblem of Freedom, and fought for the right,
Midst the shot and the shell,
And the cannon's loud roar,
Came the solemn Death Knell.

Many lives then were sacrificed,
"Twas for Country and Right;
Now at Dawn's early light
Our colors so bravely
Stream forth, stream forth in their glory,
Hail to our flag, may it ever keep waving
O'er our dear Country, the "home of the free."

Telling its story of a Nation's saving,
Proclaiming "Peace Be," proclaiming
"Peace Be,"

Oh, may peace eternal the whole world see!
The ending of the day was given by Hon. Alton C. Wheeler of South Paris, and was intensely interesting. Mr. Wheeler opened his remarks by expressing his appreciation upon receiving an invitation to deliver the Memorial Day address at this time as he had been invited twice before, but was unable to accept on account of previous engagements. On extending his greeting to the citizens, the organizations and the soldiers of the G. A. R., he referred to the patriotism of the citizens of Norway in holding and attending these exercises, as many towns nearby completely postponed the services on account of the bad weather.

In referring to Norway in the war of the Rebellion, he said in part: "No town was more patriotic in the days of the civil war than was Norway. We cannot refrain from commenting upon the patriotism of Norway in 1861-65. The citizens were ready to respond. When the call to the town was received on April 23, 1861, the company was filled by the 25th, and on the 27th they were on their way to Portland. The boys and girls went, and especially the teachers of Norway, should not forget nor forget to teach that one of the first to give his life for the Union was a soldier Norway born—Sumner Henry Needham, who lost his life in Baltimore in the 6th Massachusetts Regiment."

No speaker could look into the annals of your town without recalling the words of your historian who said: "Norway sent down to war more than one-third of her adult male population. No town under the present conditions would do better than did Norway in those days when Norway citizens offered themselves for their country. As we read of the slaughter now going on, do you know what it would mean, to go up and down the streets and inside of four days take one out of every three men to leave to serve his country."

"More military commissions were granted men of Norway than any town in Maine of equal size. In the 24th Maine Regiment three of the commissioned officers went from Norway. Among the commissions granted were: 5 lieutenants; 10 captains; 1 brigadier general; 2 brevet brigadier generals; 1 captain; 1 assistant surgeon and 1 regimental quartermaster."

"As we look back over the past 55 years we bring a new significance to the meaning of Memorial Day, and as we look back we want to be mindful of the true significance of the day. It is the nation's funeral day when men cast off their prejudices, forget their differences and lay aside the weapons of business or political strife. The day was created to honor the dead but now it has become a day when we should equally honor the living survivors of that great conflict, who are still with us."

"The days we celebrate nationally refer to two great crises in our history—the birth of the nation, the fourth of July and the preservation of the nation. A new day should be instituted for the consecration of American citizenship. We should emulate your patriotism in the past. You invite the school children and teachers, and especially the teachers, to these exercises to give to them examples of true patriotism. A new phase in national life is at hand, and men should stand shoulder to shoulder to maintain the union, for American citizenship means something and something new. The problems of the nation may be acute, for the domestic problems are a real danger. Rome was not conquered by force from without, but by her own insidious national sins. It is the wrong from within which may assail our nation through wrong-doing, through the creation of trusts, and the increasing cost of living. It is coming about, by allowing forces from other countries to impose upon us

their ideas and ways rather than impressing them with American ideas. The immigration door to our land is always open to all, and that is right, but it should be closed to the extent that after this war is over, the people coming to this country must become true American citizens, must be willing to lay down their lives for this country and not be allowed to come here and send their earnings to foreign countries.

"In closing, Memorial Day should teach us loyalty to right and aid in giving us clear-sighted statements to comprehend, ability to conceive a remedy with the courage to speak. One hundred and fifty years ago this nation made its way into the councils of the world, a tottering infant, and for years was regarded as a stranger, until 1860, the world learned that the nation had come to stay. The nation has become prominent and we hope will be instrumental in bringing peace."

Whatever has been written shall remain, Nor be erased nor written over again; The unwritten only still belongs to thee; Take heed, and ponder well what it shall be.

The annual meeting of the Spanish War veterans, the Frank F. Bartlett Camp, No. 8, W. R. C. W. V. was held during the forenoon, Memorial day, and the following officers were elected:

Last Maybasket of the Season.

It was a beauty full of fruit, sweets and handkerchief and flowers.
The club members brought their thimbles, needles and threads and made up seven sheets that she had torn off before she was sick. They also brought the materials for a lunch and after the sewing was accomplished, they all enjoyed it even to A. M. Dunham himself, who felt like an oriental ruler amidst all the fair sex.

Mrs. Dunham is gaining slowly but surely, was the unanimous vote of the club. She was very surprised and delighted at the gathering.

The annual Memorial church services before the Harry Rust Post and the W. R. C. was held at the Universalist church, Sunday afternoon. The sermon was preached by Rev. C. G. Miller. IS IT RHEUMATISM?

Ain't You Really On The Wrong

Track?

A good share of so-called rheumatism

is caused by weak kidneys. When the

kidneys fail to clear the blood of the uric

acid, the acid irritates the delicate

nerves. Torturing pains dart through

the affected part whenever it is moved.

By strengthening the kidneys, Doan's

Kidney Pills have proven their worth

in thousands of so-called rheumatic

cases, lumbago, sciatica, gravel, and

urinary disorders. Doan's are well-

known in Norway and warmly recom-

mended by Norway people. Read this

Norway case:

M. M. Kilgore, Danforth St., Norway,

says: "I had backache and rheumatic

pains for more than a year. My kid-

neys were the cause of the trouble. Some-

times I was so lame I could hardly stand.

I did not rest much and was feeling

miserable when I was advised to try

Doan's Kidney Pills. I got them at

Stoke's Drug Store and a few boxes

cured me."

THREE YEARS LATER, Mr. Kilgore

says: "I have never had the slightest

return of kidney trouble since Doan's

Kidney Pills cured me."

Price 50c, at all dealers. Don't simply

ask for a kidney remedy—get Doan's

Kidney Pills the same that Mr. Kilgore

BUY AT HOME.

When you want to help your town,

Buy at home:

When you want shoes or hat or gown,

Buy at home:

Nerve much more than you need,

Can't get goods, collars, chicken feed,

Frame this phrase up for your creed:

"Buy at home."

Other folks may buy by mail,

You buy at home:

Help the home store, a sale,

Buy at home:

Every dollar sent away

Means a dollar less to pay

What is owed right here today,

Buy at home:

Are you for your town or not?

Buy at home:

Cheaper elsewhere? Tommyrot!

Buy at home:

Home store qualities are true,

Home store merchants work for you:

This much then you ought to do,

Buy at home.

MEMORIAL DAY.

Grace and mercy ever flowing,

Fall upon our hearts today,

As we come to this hallowed day.

With love that fadeeth not away,

Memories, precious, fondly clinging,

While the heart beats ever true,

Praises for our dead they're singing.

For the Gray and for the Blue,

Honor, home and heroism ever true,

Each brave heart its duty saw,

Flashing from its stern call never.

Polled the inner, hidden soul,

Peace and love, swift winged from heaven

Brought the end to cruel strife,

And the glories of their heaven

Spreads through every patriot's life.

Here, today, we fondly linger,

Till of deeds so bravely done,

And with pride we point the finger

To the laurels they have won.

As our nation now stands watching

Other nations' fear and strife,

May our peace to them imparted,

Bring them to the path of life.

But in this impending crisis,

Should there rise the bugle call,

And our leader's voice then rises:

Where call is heard, from shore to shore,

From town or farm, all in their might,

From college walls, or mill and store,

They'll rally for a cause that's right.

Then while our flowers with care we spread,

With loving hand and quick heart-beat,

And sing the praises of our dead,

We know their sons can duty meet.

NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition. No alcohol.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

NORWAY AND VICINITY.

THE SCHOOL LAND QUESTION

To the voters of Norway:
In last week's issue of the Advertiser was a short article headed on the town's possible action in regard to various lots adjoining the high school grounds on Main street. The tenor of that article conveys the impression that there is one or more citizens who do not wish the town to acquire the land in question. The personal note straining through the item led me to expect to find a name signed at the end. With the wide stretch of unimproved land about Norway it is to be regretted there should be such tenacity of purpose to build on that particular spot on Main street. The subtle reminder that such buildings would "improve" the land so long vacant and add to the millage and a quarter tax valuation of Norway is sadly humorous. The ignorance of the welfare of several hundred school children through each generation, should this parcel of reality be devoted to private dwellings, reveals the logic and the action behind the movement to prevent the public schools from expanding in the most wholesome fashion.

That strip of land is necessary for the development of Norway's public school facilities. That is the only fact to be considered by you voters at the special town meeting. That some gentlemen wish to put up a house or houses has nothing to do with the situation. From times immemorial the interests of the individual have given way before the need of the community. The condemnation of private property for the public good is continually going on wherever open minded and far-sighted citizens work for the real good of a community. If you voters of Norway refuse to take over those holdings for the benefit and betterment of your school-children, you will pay for that refusal many-fold within a very few years. The proposition as endorsed by the school board and, I trust, by a majority of the townsmen, is the most sane, economical and satisfactory plan that can be made. You are committed to that locality and have been since the old Academy days. Your high school building is anchored there; the town has voted to install a central heating plant in the new gymnasium to be erected there this year; the land is needed to perfect the scheme for increasing student population.

The proposition is too favorable to be defeated, too economical to be disregarded because it may inconvenience some individual. I earnestly request every voter who has a genuine interest in our schools to walk by the high school and visualize that corner as it would appear once the unsightly fence is removed and the grassy grounds of the school sweep unbroken from the present building to the street. Then compare that improvement and what it means to your children's children with this picture; the high school's street frontage confined as now with that eyesore of a fence persisting and all for the sake of having two or three dwelling houses stuck into the strip.

I earnestly trust that every voter having viewed the scene will make it his business to be present at the special town meeting to be held on June 15. Those who have no axe to grind, but who simply seek what is best for Norway's schools and scholars. Nor do I limit my appeal to the fathers of growing children. Let the mother, always so keenly awake to the welfare of the child, make it her business to size up the situation and form her opinion. Nor is this a matter which concerns only the parents; every man in the community owes a duty to the community. The fact that you have no children in school does not lessen your responsibility. The welfare of the children of tomorrow is in our keeping. Time has passed when a generation can afford to neglect making suitable provision for those coming after.

Very truly,
Hugh Pendexter.

A CLEAN UP CRUSADE.

The following petition has been circulated among and signed by the residents of the vicinity where the improvements are called for, viz: Bridge, Orchard and Water streets:

To the Municipal Officers of the Town of Norway, and to the Assessors of Norway Village Corporation:

"The undersigned, citizens of Norway Village, believing that a clean, tidy and thrifty appearance along our streets, particularly streets leading into the village, by which the traveler forms his first impressions of our community, is of great importance, and desiring to better these conditions, we respectfully request your honorable Boards to take appropriate action to bring about the following improvements upon and along Bridge street, so called, viz:

"1. To clean out the rubbish from the mill pond of C. B. Cummings & Sons Co., and to take such action as will prohibit the use thereof as dumping grounds for tin cans, cart wheels and other rubbish.

"2. To secure the removal of privy in rear of the Richardson Meat Market store, its prominent, unsightly and filthy appearance constituting, in the opinion of the undersigned, a nuisance which should be immediately abated.

"3. To build and level up the sidewalk on the upper side of the bridge along said Bridge street, between the corner of Main and Bridge streets, near Richardson's Meat Market, which is a very small expense.

"4. To erect and maintain substantial, neat and safe railings of iron or other suitable material, along said bridge on both sides, in place of the present dilapidated, unsafe and unsightly railings.

"5. To take such measures as may be necessary to immediately remove the stand-pipe at the corner of Water and Bridge streets to a point near the upper bridge, opposite the mill of C. B. Cummings & Sons Co., or to such other location as may be determined by the honorable Boards, and to grade up and seed down the plot where same is now located."
